

Are you 18+ years of age and have

Multiple Sclerosis?

A research team at Queen's University invites you to participate in a research study to validate the accuracy of the **FitBit Charge HR™** in people with MS.

This study involves a 1-hour testing session and wearing different types of activity monitors, including the FitBit Charge HR™, for 2 days.

Refreshments, parking and \$20 to cover travel and meal cost will be provided.
