

Occupational Therapist Career Opportunity at Infinity Health

About Infinity Health

Infinity Health is a leading provider of Occupational Therapy and rehabilitation services in the Lower Mainland and Fraser Valley regions of British Columbia.

Established in 2009, our company is well known for its practice of successfully exposing new graduates to a variety of areas of work, both clinical and community-based. Equally as important, we have added several experienced OTs to our roster for purposes of mentoring, training and quality assurance.

Whether you have experience or are a new graduate, we are the place for you to grow both professionally and personally. Many of our OTs have grown into roles of clinical educators/clinicians through additional training provided by Infinity Health. We believe there is a teacher and student in all of us.

Our model is one that encompasses both clinical and community-based work. Clinicians may find themselves travelling to visit our clients at home or they may be meeting their clients at one of our three clinic locations.

Areas of practice and client demographic include Motor Vehicle Accidents, Pediatrics, Drivers Rehabilitation, Brain Injury/Concussion Management, Mental Health, Chronic Pain, Veterans Affairs Canada, Long Term Disability Insurance, WorkSafe BC, Employer Based Services, Disability Management and a few others.

Our training program is paid training and begins with an in-class component (5-7 days). This is followed by attending Senior OT led workshops on concussion/pain management/musculoskeletal assessment/functional screening/report writing for 2 weeks. After the first few weeks, we continue our training with observation/shadowing in the field, which is followed by the assignment of a small caseload and weekly file review with a Senior OT. Our Senior OTs are able to attend assessment and treatment sessions with you until you are clinically comfortable to perform on your own.

Every month we have an educational presentation during lunch hour from one of our Senior OTs or an external source. Twice a month we have peer group consulting where you have the option of attending peer group discussions with other OTs. Annually, you are awarded \$1K for an educational allowance in addition to your signing bonus of \$2500. Best practice is defined as participating in clinical research and peer-reviewed practice. At Infinity Health, you have these opportunities to pursue your best practice on a regular basis.

Lastly, as part of our hiring process, we will have you speak with some of our recent hires who have gone through the training process recently.

Please refer below for additional details.

What's in it for you?

- **Signing Bonus up to \$2500**
- **Exposure and training in our multiple OT streams: Pediatrics, Drivers Rehab, MVA Rehab and Veterans Affairs**
- **Competitive Benefit Plan**
