KEMPTVILLE PHYSIOTHERAPY CENTRE

We are looking for a Physiotherapist to join our team and growing community! Kemptville is a great place to settle or a short commute from the city of Ottawa. Located on a 400 series highway, sitting just two and a half hours from Montreal, and under an hour and a half from Kingston, Kemptville is a thriving community, with easy access to many great locations.

With over 25 years experience, we are an established clinic in the community that is passionate about growth! With this well-earned reputation, there is immediate potential to build a full caseload. We are looking for a dynamic professional, who is looking to work in private practice to join our team. There are opportunities for leadership roles within the team as well as mentorship programs designed to support your growth as a clinician.

Our team culture is important to us! We use any occasion to celebrate; birthdays and most oddball national holidays are fair game! We're also passionate about being role models in our community, and giving back to meaningful charities. Since 2020, we have partnered with a locally run charity, Ryan's Well Foundation, with a global initiative that provides clean water to special at-risk communities in Western Uganda.

We offer

1. Flexible Contract Options: employee or independent contracts available
2. Build your caseload quickly by using our clinic waitlist
3. Mentorship Program: Map out your goals, and chart your own path
4. Regular support to help build and maintain your caseload
5. Education allowance per year (employee)
6. Vacation pay (employee)
7. Paid time off for self-care, family/friends, travel (employee)
8. Onboarding & training
9. Team building events
10. No admin work: We manage all reception, appointments, invoicing, and billing for you
11. Cloud-Based EMR: check your schedule, and access your charts remotely
12. Use of Radial Shockwave, Red Cord Exercise system
13. Commitment to Educating Next Generation of PT's: Well-established student placement program with Queen's and University of Ottawa
14. Large open gym space with 7 private treatment rooms
15. The chance to work with a group of experienced PT's
