

Physiotherapist, Bruce Village Chiropractic

Who We Are

At Bruce Village Chiropractic we value community, whole-person health, evidence-based care, and patient-centered support. We are currently a team of a chiropractor, massage therapist, and kinesiologist working in biofeedback. We are looking to grow our multidisciplinary clinic to serve the local community. We have a special interest in serving the needs of pregnant and postpartum persons, pediatric patients, and their families.

Bruce Village opened its doors in December 2020. As a new business owned by a new clinician, we understand that patient care and business practices are changing more rapidly now than they ever have before. We are looking to offer a newer model of private practice; a collaborative environment where practitioners participate together in the creation of treatment plans, have input on business practices, and everyone's expertise is valued.

Where We Are

Bruce Village Chiropractic is located in Port Elgin, Ontario. If you love the outdoors, small local businesses, and a community feel, Port Elgin is for you. We have the amenities of a larger city, from groceries to shopping to restaurants to the best coffee shops you'll visit (coming from a coffee lover!) without the sprawl of the suburbs or city. If you love the outdoors, you'll love our wooded, gravel, and waterfront trails. In Port Elgin you're never far from sandy beaches and gorgeous blue water. We are next door to MacGregor Provincial Park which has a network of trails for walking, biking, and cross country skiing.

Our practice is located in the south end of town, in a century home. The main floor of the practice is fully accessible and includes parking, reception, private treatment spaces, accessible pediatric gym, washroom, and kitchen. The upstairs features an additional four private treatment spaces, a waiting room, and additional washroom.

Physiotherapy at Bruce Village

We are looking for a registered physiotherapist who is passionate about patient care, and has additional training or an interest to pursue training in providing care to pregnant and postpartum folks, and/or pediatric patients.

We are looking to fill a need for physiotherapy services for existing patients that cannot find local availability, as well as serve the wider community. You would be the first physiotherapist at Bruce Village so you'd be welcome to grow your practice in a way that suits you, seeing the clients you want to see (with our support of course). We would like to note that there is a significant need for

pelvic health physiotherapists in our area. **We will provide a stipend for continuing education in pelvic health physiotherapy** if that is an area that interests you. We encourage new and early career physiotherapists to reach out to us!

If you enjoy working as a member of a collaborative team, you want to put your mark on growing and shaping a new business dedicated to its local community, and you are interested in whole-person health, we would love to hear from you!

Benefits of Working with Bruce Village

- You will be featured on our website, social media pages, and Google My Business page to help you build your practice.
- Easy-to-use JaneApp scheduling, billing, and electronic health records software, with the option for allowing online booking
- Embodia account for prescribing active treatment plans, secure messaging with patients, and practitioner continuing education
- Membership with the local business and healthcare networking groups, which is ideal for making connections as a new practitioner
- Easy-to-access location with on-site parking
- Private treatment rooms with large windows
- Rehabilitation room (gym) suited to pediatric practice, and available for general practice
- Fully accessible treatment and gym spaces, washroom, and entry
- We will furnish to fit: procure the supplies that best suit your practice style
- Annual stipends for practice supplies and continuing education
- Additional training stipend for pelvic health physiotherapy may be discussed

Hours and Compensation:

Full-time and part-time options are available.

We offer a 65:35 to 60:40 split depending on experience and scheduled hours.

Notable Barriers:

We believe in transparency for our potential candidates. We would like to disclose that Port Elgin has a low residential vacancy rate and lacks public transportation. Despite these barriers, through connections with the business community we would love to help you look for housing.

If housing or transportation are a concern for you, we would be happy to discuss your situation.

To Learn More or Apply:

Our clinic owner Dr. Rebecca Burns will be happy to answer any questions you have.

Please email dr.burns@brucevillage.ca or call 519-389-7078.
