

## Research Physiotherapist (Casual)

### Job Posting Information

<b>Job Type:</b>	Casual (with opportunity to transfer to part-time)
<b>Position Title:</b>	Research Physiotherapist
<b>Number of Positions:</b>	1
<b>Location of Work:</b>	School of Rehab Therapy, Queen's University /patients' homes in Kingston and the surrounding area
<b>Paid position?</b>	Yes (Commensurate with experience and industry standards. Travel expenses will be accounted for)
<b>Job Description:</b>	<p>This is an exciting opportunity for a physiotherapist to help in a new research study and stay up to date with recent evidence. This study is a parallel-group, single-blind, Randomized Controlled Trial with a 14-week physiotherapy intervention and follow-ups until 12 months after hospital discharge. The study aims to test a new patient-centred physiotherapy program to help seniors recover faster after a hip fracture in their homes. The program will be delivered by a team of a physiotherapist and physiotherapy assistants at patients' homes and will include exercise, pain self-management support, and education. Within the intervention period, the PT will visit each participant three times (weeks 1, 6, &amp; 14), the first of which will happen within one week of discharge. It is expected that, on average, the PT will be working for ~ 8 hours/week with some expected fluctuations of time commitment over the study. Training will be provided for the selected candidate. The expected start date is in the late spring or early summer of 2023 (can be negotiated). The study is expected to be active for 4-5 years.</p>
<b>Qualifications:</b>	<ul style="list-style-type: none"><li>- Must be registered with the College of Physiotherapists of Ontario</li><li>- Have two years (full-time equivalent) of clinical experience as a physiotherapist</li><li>- Organized, flexible and available to work on short notice</li><li>- Having previous experience in research, specifically with older adult participants, is an asset</li><li>- Experience working with a PTA is an asset</li><li>- Willing to learn new skills as required</li></ul>
<b>Application Instructions:</b>	<p>Interested applicants are invited to submit a short CV by email to Dr. Mohammad Auais, Ph.D. (c/o Dr. Seyed Mehdi Ahmadi, postdoctoral fellow &lt;<a href="mailto:sma13@queensu.ca">sma13@queensu.ca</a>&gt;) with the subject "PT Application". The CV should indicate previous experiences and education. A cover letter is optional. The application review process will start immediately and continue until the position is filled. While we appreciate all applications, <b>only successful applicants will be contacted.</b></p>
