

Physiotherapist wanted for orthopedic manual therapy-oriented Physiotherapy Clinic

MoveWell Physiotherapy

Location: Gananoque, ON

Physiotherapist Position

MoveWell Physiotherapy Centre is well equipped 3500 sq. ft clinic in Gananoque Ontario in the heart of St Lawrence and Thousand Islands, 15 minutes east of Kingston.

We are located on the Gananoque river with views of the St Lawrence river in a beautiful renovated Limestone Medical building with ample free parking. Pharmacy, Medical Labs and the local family Physicians are also located in our building which makes communication with our referring parties excellent. We are a multidisciplinary orthopedic oriented rehabilitation clinic committed to one-on-one quality care. Our Interdisciplinary services include physiotherapy, athletic therapy, registered massage therapy, acupuncture, kinesiology, occupational rehabilitation, custom foot orthotics and orthopedic bracing.

We are looking for a motivated, forward thinking physiotherapist, with skills in objective assessment and an ability to provide manual therapy to help improve the health and well-being of our patients. Our clinic is fast paced, yet the vibe is still relaxed providing opportunity to exchange ideas/learn and work as a team player with our other therapists.

Although MoveWell is located in Gananoque we can additionally offer an opportunity to potentially work part time in our affiliated Physiotherapy clinic in Kingston, Hydrathletics.

MoveWell has a steady flow of new patients to enable you to build your caseload quickly. We currently do not employ physiotherapy aides or assistants at our facilities; therapists see one client at a time (45- 60 minutes for an assessment and 30 minutes for a follow up treatment). We additionally have fully equipped rehabilitation gyms at our locations.

We emphasize accurate assessment and diagnosis of a client's issue and rely heavily on manual therapy treatment techniques to provide the best possible treatment outcomes. Although we would prefer a physiotherapist with experience our clinic is a great facility for new graduates to start their career at, especially, anyone interested in obtaining their FCAMPT, as the owner/physiotherapist is an Australia trained manual/manipulative therapist with FCAMT qualification.

If you want to spend time with your patients to problem solve, discuss options, treat at a comfortable pace and challenge yourself then please send us your resume.

Job Type: full time or part time capacity

Required certification:

- In good standing with the College of Physiotherapists of Ontario

Please send your resume or any inquiries to careers@movewell.ca
