COURSE DESCRIPTION:
This course will discuss key changes in aging and examine the theories, models and strategies for healthy aging in Canada. These principles will be studied through a mix of online and group learning activities in the context of a variety of health concerns related to aging and with respect to individual and community action and public policy.
DUTIES:
1) Marking and grading presentations.
<i>Note: This is an online course, therefore work will be done virtually.</i>
QUALIFICATIONS:
1) Demonstrated knowledge of aging processes and theories through previous coursework and/or work experience with healthy older adults
2) Existing skills or willingness to develop skills to facilitate on-line learning at the graduate level
