COURSE DESCRIPTION:

This course examines the interface between mental health and healthy aging. Students will examine theories of mental health and aging, the mind-body connection, and approaches to optimize cognitive vitality and psychosocial well-being. The course will address common mental health conditions associated with aging, and explore issues related to these conditions.

Note: This is an on-line course, therefore work will be done virtually.

DUTIES:

- 1) Assisting the instructor to provide formative feedback to students on major (cumulative) assignment; and organizing and working with peer-feedback groups.
- 2) Assistance with marking and grading of students' assignments.

QUALIFICATIONS:

- 1) Existing skills or willingness to develop skills to facilitate on-line learning at the graduate level.
