COURSE DESCRIPTION:
This course introduces students to the central construct of occupation and to both the consequences and determinants of occupation. We will explore the most prominent theoretical models for understanding the relationship between occupation and health, and the factors that affect occupation. The course also covers the historical development of occupational therapy theory, and key theorists over the past 100 years.
DUTIES:
Responsible for grading student assignments, evaluating student presentations, and assisting with overall course logistics. May take on teaching responsibilities if desired, in consultation with prof.
QUALIFICATIONS:
<ol style="list-style-type: none"> 1) The ability to offer constructive feedback on student assignments; 2) The ability to engage with students on course discussion boards and website; 3) Familiarity with OnQ for marking assignments, entering marks and obtaining grade statistics; 4) Willingness to voluntarily consult textbook or attend lectures as needed to be capable of marking assignments.
